### Sacred Spaces:

*—Those personal sanctuaries that rejuvenate the spirit for those who dwell in them.*

With this goal so defines the foundation at the core of Shannon Scott Design. Led by the personal attention of Shannon Scott this internationally recognized design firm while offering the intimacy of a design boutique brings to life environmentally-conscious Hospitality and Residential interiors. With a body of work that extends from fine hotels & spas to resort golf clubs – intimate wine tasting rooms to world-class restaurants – vacation retreats to luxury homes the defining philosophy that is integral throughout is comprised of 3 key components: Sacred Spaces, Environmental Responsibility, and a respect for the History & Culture specific to each property. This philosophy can be no more evidenced than to find yourself surrounded by one of the luxurious interiors created by Shannon & her team.

So from stone castles in Newfoundland to Tuscany-inspired villas & contemporary beach homes in Santa Barbara – from hotel retreats in the heart of California's Wine Country to Santa Barbara's historic Montecito Inn, University Club, & Montecito's exclusive Birnam Wood Golf Club each space & each design are as unique as the Clients themselves.

Don't you owe it to yourself to join the family of appreciative clients?

Shannon Scott Design has offices in Sedona, Arizona & the Santa Ynez Valley, California.
